Financial Results for Fiscal Year 2025 (April 1, 2025 – March 31, 2026)

Michiko Nakajima

Director, Vice President & Executive Officer,
Head of Accounting & Treasury Headquarters

May 7, 2026

Key Points

■ FY25 results: Sales increased while operating income declined

- Summary:

- Orders increased, driven in particular by strong growth in the Measuring Instruments business.
- Sales increased, reflecting revenue contributions from large-scale projects received in prior fiscal years.
- Operating income decreased due to a deterioration in gross profit margin, including one-time factors.

- Segments:

Control: Sales increased while operating income declined

Measuring Instruments: Sales and operating income increased year on year.

New Businesses and Others: Steady year-on-year performance

■ FY26 earnings forecasts

Despite uncertainty in the business environment, both sales and operating income are expected to increase.

■ Shareholder returns (Planned)

Fourth consecutive dividend increase and share repurchases

Summary of FY25 Results (year on year comparison)

- ◆ Orders increased, driven by the acquisition of multiple large-scale projects in the Control business, as well as rising demand related to AI data centers in the Measuring Instruments business (excluding the impact of exchange rates: +¥15.3 billion, +2.5%).
- ◆ Sales increased, supported by a solid order backlog (excluding the impact of exchange rates: +¥38.5 billion, +6.8%).
- ◆ Operating income decreased mainly due to a deterioration in gross profit margin in the Control business, including one-time factors (excluding the impact of exchange rates: +¥0.8 billion, +1.0%).

		FY24	FY25	Difference	Growth rate	Impact of exchange rate	(Billion ¥)
Orders		598.6	617.8	+19.2	+3.2%	+4.0	
Sales		562.4	604.8	+42.4	+7.5%	+3.9	
Operating income		83.5	82.6	(1.0)	(1.2%)	(1.8)	
ROS(%)		14.9	13.6	(1.2pt)	—	—	
Ordinary income		85.4	84.3	(1.1)	(1.3%)	(1.5)	
Profit attributable to owners of parent		52.1	58.1	+6.0	+11.5%	(1.5)	
Exchange rate	US\$1=	¥152.55	¥151.17	(1.38)	—	—	

Analysis of Operating Income (year on year comparison)

Comparison for Orders, Sales, and Operating Income by Segment

◆ Control:

- Orders increased (excluding the impact of exchange rates: +¥3.1 billion, +0.5%).
- Sales increased (excluding the impact of exchange rates: +¥33.6 billion, +6.4%).
- Operating income decreased mainly due to a deterioration in gross profit margin, including one-time factors (excluding the impact of exchange rates: -¥0.8 billion, -1.1%).

◆ Measuring Instruments:

- Orders increased significantly, and sales increased (excluding the impact of exchange rates, orders increased +¥11.3 billion, +37.4%, and sales increased +¥3.8 billion, +12.7%).
- Operating income increased (excluding the impact of exchange rates: +¥1.8 billion, +28.2%).

(Billion ¥)

Orders and Sales by Region in Control Segment

- ◆ Despite a reactionary decline following large-scale orders in the Middle East in the previous fiscal year, orders increased, mainly due to the acquisition of large-scale projects in Japan.
- ◆ Orders: +¥3.1 billion, +0.5% (excluding the impact of exchange rates)
Sales: +¥33.6 billion, +6.4% (excluding the impact of exchange rates)

FY26 Forecast

- While there are short-term concerns about the impact of the Middle East geopolitical situation, orders are expected to increase, supported by robust energy demand and a continued strong customer appetite for investment (excluding the impact of exchange rates: +¥31.3 billion, +5.1%).
- Sales are expected to increase, but growth will be limited after factoring in the impact of the Middle East situation.(excluding the impact of exchange rates: +¥14.2 billion, +2.4%).
- Operating income is expected to increase, mainly due to higher sales.

Financial Results for Fiscal Year 2025

**Initiatives Toward Achieving
GS2028**

Kunimasa Shigeno

Director, President & CEO, Representative Executive Officer

May 7, 2026

Business Environment

Despite lingering concerns over short-term delays and cost increases due to Middle East tensions, customer investment appetite remains supported by strong energy demand.

Region

Middle East: While the impact of heightened geopolitical tensions requires continued monitoring, demand for DX solutions remains resilient.

India: Competition remains intense; however, infrastructure investment continues to be robust.

North America: Although concerns persist over an economic slowdown due to inflation, increased investment is expected in LNG- and shale oil-related projects.

China: Economic stagnation continues, and the business environment remains unstable.

Europe & Southeast Asia: Demand for energy diversification is increasing, with growing expectations for investment in CCS/CCUS.

Japan: Investments focused on safety, security, and productivity enhancement remain steady.

Upstream/downstream: Gas demand remains solid; DX investment active despite potential short-term delays.

Renewable: Accelerating growth in Europe; renewed focus on nuclear alongside continued conventional power investment.

Water: Long-term demand supported by population growth; rising investment in desalination and water recycling.

Industry

Chemical: Continued investment growth in AI data centers amid expansion of the high-performance chemicals market; concerns over operating rates due to naphtha supply conditions.

Mining: Solid demand for copper and rare metals; EV demand softens amid rising logistics and energy costs.

Pharma, food & beverages: Biopharma expansion and increasing demand for data-integrity solutions; food demand continues to rise.

Risk

- Geopolitical instability, centered on the Middle East
- Inflation- and tariff-driven margin pressure
- Volatile foreign exchange movements

Overseas sales %	
FY24	74.4%
FY25	73.3%

Impact of Middle East Situation on Yokogawa

2026

2027

2028

2030

Impact within the Middle East

- The safety of our employees and their families has been fully confirmed.
- FY25 performance remains strong, and the overall impact of the conflict has been limited.
- Some ongoing projects experienced temporary delays, but have now begun to restart.
- At this stage, no material impact has been observed on the project pipeline for FY26 onward, although the situation remains under close watch.

Impact outside the Middle East

- Concerns remain regarding cost increases and delays in investment decisions due to supply chain uncertainty and procurement challenges.
- At the same time, alternative sourcing activities are accelerating, and increased LNG production is creating new investment opportunities.

Outlook

- The fundamental strength of the Middle East market remains intact, and we expect investment to recover once the situation stabilizes.
- Demand for DX investments—including cybersecurity and AI solutions that enhance plant resilience—remains strong.
- Global investment opportunities driven by the restructuring and strengthening of energy supply chains
- Expansion and diversification of investments driven by energy security, including continued investment in renewable energy, nuclear power, and LNG
- Renewed investment appetite for fossil fuels supported by the stabilization of crude oil prices

Capital Policy and Financial Strategy

- Growth investment: approx. ¥17.8 billion (cumulative FY24–25)
- Shareholder returns: FY25 annual dividend increased by ¥20 to ¥78, and share repurchases totaling ¥17.1 billion completed
FY26: Share repurchases planned, up to ¥30.0 billion
- Policy remains unchanged to prioritize investments aimed at enhancing and maximizing medium- to long-term corporate value, while improving shareholder returns through proactive dividends and other measures, and accelerating investments to execute growth strategies.

<First 3 years FY24~FY26>

Precondition: keep shareholder returns at a level that can maintain an A rating

【FY24-25 Growth investment】¥17.8 billion

<Key Transactions>

- Acquisition of BaxEnergy (June 2024, including post-acquisition capital injection)
- Acquisition of Web Synergies (May 2025)
- Acquisition of Intellisync (October 2025; integrated into BaxEnergy)
- Acquisition of WiSNAM (October 2025; integrated into BaxEnergy)

【Dividend forecast】

- FY25 annual dividend: ¥78 (up ¥20 vs the prev. year)
- FY26 annual dividend: ¥92 (up ¥14 vs the prev. year)

【Share buyback】

March 5 to December 31, 2025: ¥17.1 billion
May 8 to September 30, 2026 (planned): **Up to ¥30.0 billion**

Strengthening Initiatives for GS2028

Provide value as a trusted partner in the system of systems (SoS) domain

Strengthening front-line functions

1

Enhancing a lifecycle-oriented perspective

3

“Technology-driven Yokogawa”

Create value by utilizing and developing intangible capital

Strengthen industry responsiveness and expand cross-industry business

- Creation of customer-centric business opportunities
- Strengthening Centers of Excellence
- Expansion of local manufacturing

- Strategic expansion of the installed base
- Enhancement of customer reputation
- Value-added proposals for OPEX

- Establishment of the CTO function and development of a future portfolio (product, technology, and human capital portfolios)
- Strengthening of product competitiveness
- Acquisition of missing pieces

Strengthen the management and business foundations

2

4

Case Study ①: Growth in Adoption of Autonomous Control AI Solution

Provide value as a trusted partner in the system of systems (SoS) domain

Expanding applications of autonomous control AI solution utilizing FKDPP* at fully functioning plants

for AI, Robotics, and Cybersecurity
(Saudi Arabia)

*Factorial Kernel Dynamic Policy Programming: a reinforcement learning AI algorithm jointly developed by Yokogawa Electric Corporation and the Nara Institute of Science and Technology

Case Study ②: Strengthening Industry Coverage

2

Strengthen industry responsiveness and expand cross-industry business

Contributing to energy security through renewable energy, nuclear power, and other energy sources

■ Cosmo Eco Power Shimamaki-Kuromatsunai Wind Farm

- An integrated solution has been adopted at Cosmo Eco Power's wind power generation facilities. This was developed by one of the two companies that were acquired in FY25 and integrated into BaxEnergy, which itself was acquired by Yokogawa in FY24.
- End-to-end support from installation to operation, including Tesla battery systems

Shimamaki-Kuromatsunai Wind Farm proposed site
(Photo courtesy of Cosmo Eco Power Co., Ltd.)

■ Strategic collaboration agreement with Rolls-Royce SMR

- Provision of data processing and control systems (DPCS) for small modular reactor (SMR) program
- Participation across the full lifecycle, including control system design, engineering, validation and certification, hardware, system integration and testing, installation, and commissioning

Case Study ③: Establishment of Chief Technology Officer (CTO) Position

Create value by utilizing and developing intangible capital

Leading technology management and shaping the next growth strategy as “Technology-driven Yokogawa”

Current management

Technology management operated by business units under overall CTO oversight

Foundation completed

- CTO-led streamlining and consolidation of underperforming products
- Visualization of technology assets and establishment of technology management framework

A design that creates future growth

Advancing existing businesses and driving discontinuous growth by anticipating market changes

Group-wide mid- to long-term technology strategy

Product portfolio

Technology portfolio

Human capital portfolio

Technology platform

Demonstrating how Yokogawa’s technologies shape the future of industry and co-creating **customers’ roadmaps**

Management and investment decision-making tool

Enabling management and investment decisions for the next growth curve, and concentrating resources on **winning technologies**

External communication as a technology vision

Case Study ④: Strengthening Business Foundations

Strengthen the management and business foundations

Strongly promoting organizational and functional transformation to build operations that accelerate growth

A unique opportunity to fundamentally review operations and organizational structure

- An increasingly uncertain and complex global environment
- Retirement of experienced personnel and challenges in transferring expertise
- Declining labor force and a shortage of younger successors
- Rapid pace of change in society and technological innovation, exemplified by generative AI

Implement reforms with strong governance, focusing on areas where tangible results can be achieved

- **Streamlining operations, eliminating duplication, and expanding shared services**
- **Driving efficiency through AI adoption and advanced knowledge management**
- **Optimizing the global supply chain to reduce procurement and logistics costs**
- **Reinforcing governance over indirect expenditures**
- **Optimizing the optimal mix of centralized and localized production**

Realizing a “New Reality”

- Breaking away from incremental thinking and fostering an organization that can rethink from a zero base
- A mindset of continuously maximizing the use of the latest technologies
- Autonomous operations enabled by the coexistence of people and AI, with the right resources deployed in the right roles
- Taking on increasingly complex societal challenges

Priority Target Areas for FY26

CAPEX x India

- Intense competition, yet robust infrastructure investment
- Leveraging “winning capabilities in India” across emerging markets

Measuring Instruments Business x Global

- Strong growth in FY25, demonstrating proven product competitiveness
- Accelerating global expansion

AI x OT

- Strong market response to FKDPP
- Strength in total solutions encompassing safety and security

OPEX x Europe & Southeast Asia

- Strong installed base relationships
- Value-added solutions and services

Yokogawa's Purpose

**Utilizing our ability to measure and connect,
we fulfill our responsibilities for the future of
our planet.**

Measuring represents Yokogawa's origin as a company. We measure things, grasp and analyze their state, and add value through the information that is derived. *Connecting* refers to how Yokogawa not only combines valuable information, but also builds trusted relationships with customers in various industries and brings together businesses and industries, giving resonance to the value that we create.

Our ability to measure and connect is a core competence that Yokogawa must never lose. We wish to use this strength to find solutions to various social issues and create a future where humanity and planet Earth can co-exist in symbiotic harmony. This aspiration is expressed in our commitment to *fulfill our responsibilities for the future of our planet.*
