Key Points

■ FY26 1H results:

- Summary:

- Orders increased for both the Control and Measuring Instruments businesses, with growth particularly strong in the Measuring Instruments business.
- Sales increased, mainly driven by growth in the Measuring Instruments business and the impact of changes in foreign exchange rates.
- Operating income decreased.

- Segments:

Control: Sales increased mainly due to the impact of changes in foreign exchange rates.
Operating income decreased due to lower gross margins and higher SG&A expenses.

Measuring Instruments: Sales and operating income increased.

■ FY26 earnings forecasts: <Revised>

- **Control:** Orders ±0, sales +¥10.0 billion, operating income ±0
- **Measuring Instruments:** Orders +¥20.0 billion, sales +¥4.0 billion, operating income +¥3.0 billion

© Yokogawa Electric Corporation

Summary of FY26 1H Results (YoY comparison)

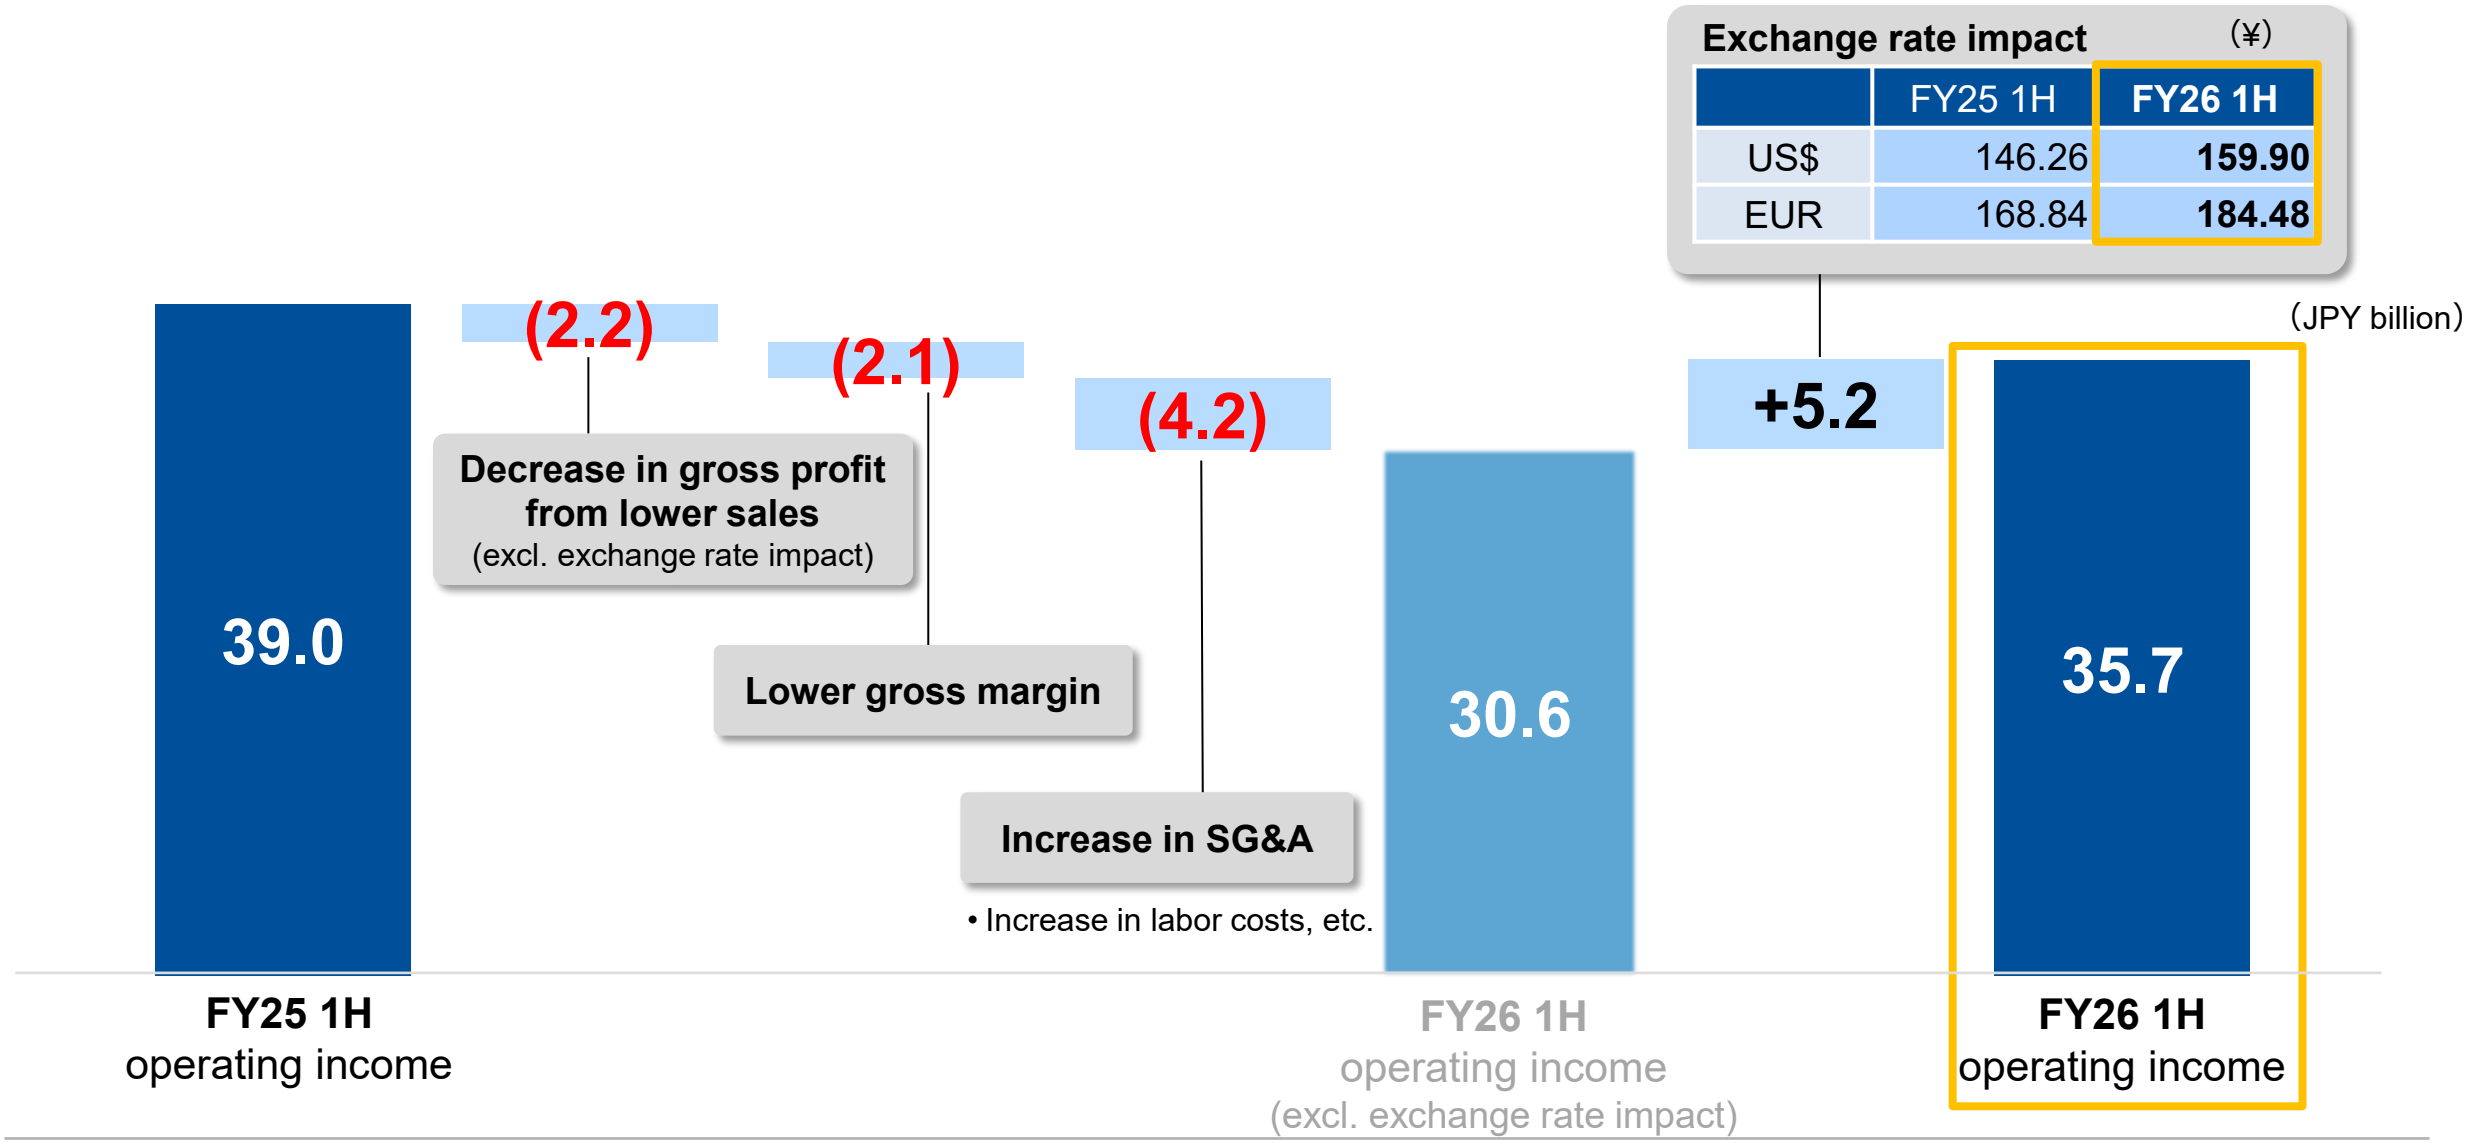

- **Orders increased**, driven by the steady acquisition of base orders in Japan and overseas for the Control business and growing AI data center-related demand for the Measuring Instruments business (excluding exchange rate impact: +¥38.7 billion, +12.9%).
- **Sales increased**, mainly due to growth of the Measuring Instruments business and the impact of changes in foreign exchange rates (excluding exchange rate impact: -¥4.6 billion, -1.6%).
- **Operating income decreased**, reflecting lower gross profit margins and higher SG&A expenses for the Control business (excluding exchange rate impact: -¥8.4 billion, -21.6%).

(JPY billion)

	FY25 1H	FY26 1H	Difference	Growth rate	Exchange rate impact

Comparison for Orders, Sales, and Operating Income by Segment

◆**Control:**
- Orders increased (excluding exchange rate impact: +¥13.9 billion, +4.9%).
- Sales increased mainly due to the impact of changes in the foreign exchange rate (excluding exchange rate impact: -¥7.5 billion, -2.8%).
- Operating income decreased due to lower gross margins and higher SG&A expenses (excluding exchange rate impact: -¥10.3 billion, -28.7%).

◆**Measuring Instruments:**
- Orders increased significantly (excluding exchange rate impact: +¥26.2 billion, +161.1%).
- Sales and operating income increased (excluding exchange rate impact: sales +¥4.3 billion, +28.4%; operating income +¥2.1 billion, +70.5%).

Business Environment

Customers continue to have a strong appetite for investment due to robust energy demand. Potential business impact from escalating tensions in the Middle East requires close monitoring.

Region

Middle East: Project pipeline remains robust, while the impact of escalating tensions requires close monitoring.
India: Active infrastructure and energy investment despite a competitive market
North America: Growing LNG and shale oil investment; increasing petrochemical demand amid Middle East tensions
China: Semiconductor investment trending upward despite continued economic weakness **Europe:** Limited large-scale project activity
Southeast Asia: Expanding power and water infrastructure investment; growing opportunities also expected in CCS/CCUS
Japan: Solid demand across industries, particularly in energy

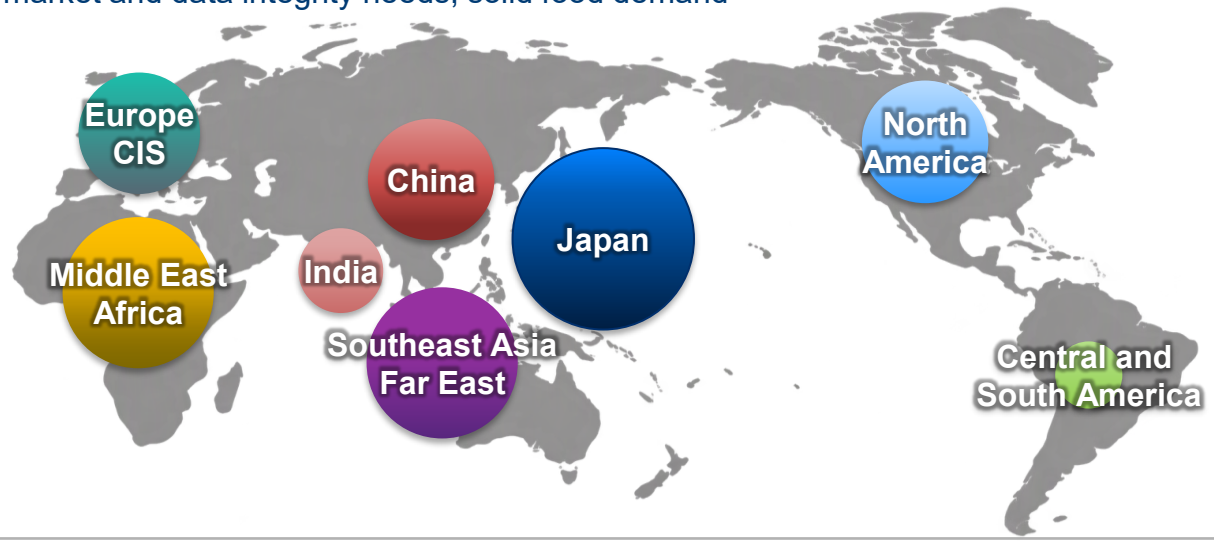

Industry

Upstream・Downstream: Solid gas demand despite Middle East project delay concerns; active DX investment in AI, cybersecurity, and automation
Renewable: Strong hydrogen project interest amid growing energy security needs; conventional power investment continues.
Water: Solid long-term water demand; expanding investment in water reuse and digitalization
Chemical: Specialty chemicals market expanding, driven by semiconductor and AI data center investment
Mining: Continued decarbonization and supply chain localization; rising logistics and energy costs remain a concern.
Pharma, Food & Beverage: Expanding biopharmaceutical market and data integrity needs; solid food demand

Risk

・Geopolitical instability, centering on the Middle East
・Inflation impacting profit margins
・Volatile foreign exchange movements

Overseas sales %	
FY25-1H	73.7%
FY26-1H	76.3%

© Yokogawa Electric Corporation

Business Impact of Prolonged Middle East Tensions

Delayed normalization, but investment appetite remains strong due to solid energy demand.

FY26 initial outlook

Normalization expected in 2H

(Situation at the time)

- Elevated risk across the Middle East, with limited direct impact on regions where many of our customers operate
- Gradual resumption of ongoing projects that had temporarily slowed
- No significant impact observed on the project pipeline for FY26 and beyond
- Accelerating investment related to energy security outside the Middle East

(Initial FY26 scenario)

- Gradual recovery of Strait of Hormuz logistics in 1H, with normalization in 2H
- Soft order intake in 1H, followed by recovery in 2H
- Partial sales deferral to FY27
- Higher logistics costs and component prices

Normalization timeline revised

As of Nov. 2026

Uncertainty persists; impacts to be closely monitored

(Current assessment)

- Lower plant utilization rates and temporary shutdowns at certain customers amid the prolonged conflict
- Deferral of OPEX demand, including maintenance activities
- Delays in progress for some CAPEX projects, though no cancellations confirmed to date
- No significant changes in the project pipeline
- Continued investment in energy security outside the Middle East, including expansion of strategic petroleum reserves

(Outlook)

- Recovery in order intake expected later than initially assumed
- Investment demand supported by long-term growth in energy demand
- Robust DX investment driven by AI

Expanding Business in the Hydrogen Energy Sector

Signing of MoU with two Slovenian infrastructure companies to advance Slovenia's hydrogen ecosystem

- Establishing a framework with ELES and Plinovodi to strengthen the resilience of Slovenia's energy infrastructure
- Promoting cross-industry collaboration for electricity, gas, and hydrogen infrastructure to enhance energy security and system stability
- Leveraging Yokogawa's digitalization and automation expertise to contribute to energy security and decarbonization in Europe

Received control systems orders from Kawasaki Heavy Industries for the world's largest liquefied hydrogen carrier and for two hydrogen-fueled vessels

- Part of NEDO Green Innovation Fund projects for liquefied hydrogen supply chains and next-generation ships
- Leveraging LNG carrier control technologies to support maritime decarbonization and safe operations

Selection as Main Automation Contractor for LNG Canada Phase 2

Building on the experience gained in Phase 1 to support the major Phase 2 expansion, doubling production capacity

LNG Canada export facility in Kitimat, British Columbia, Canada

- Selected as the main automation contractor (MAC) for the LNG Canada Phase 2 project
- The Phase 2 expansion will double LNG production capacity from **14 to 28 million tons per annum.**
- Yokogawa will provide a broad range of solutions, including control and safety instrumented systems, operator training simulators, and cybersecurity infrastructure.
- Reusing the automation platform established in Phase 1 will support a smooth Phase 2 expansion and reduce execution and integration risks.

Capitalizing on Market Growth in India to Expand CAPEX Business

Major order for five 800 MW thermal power units from India's state-owned power company

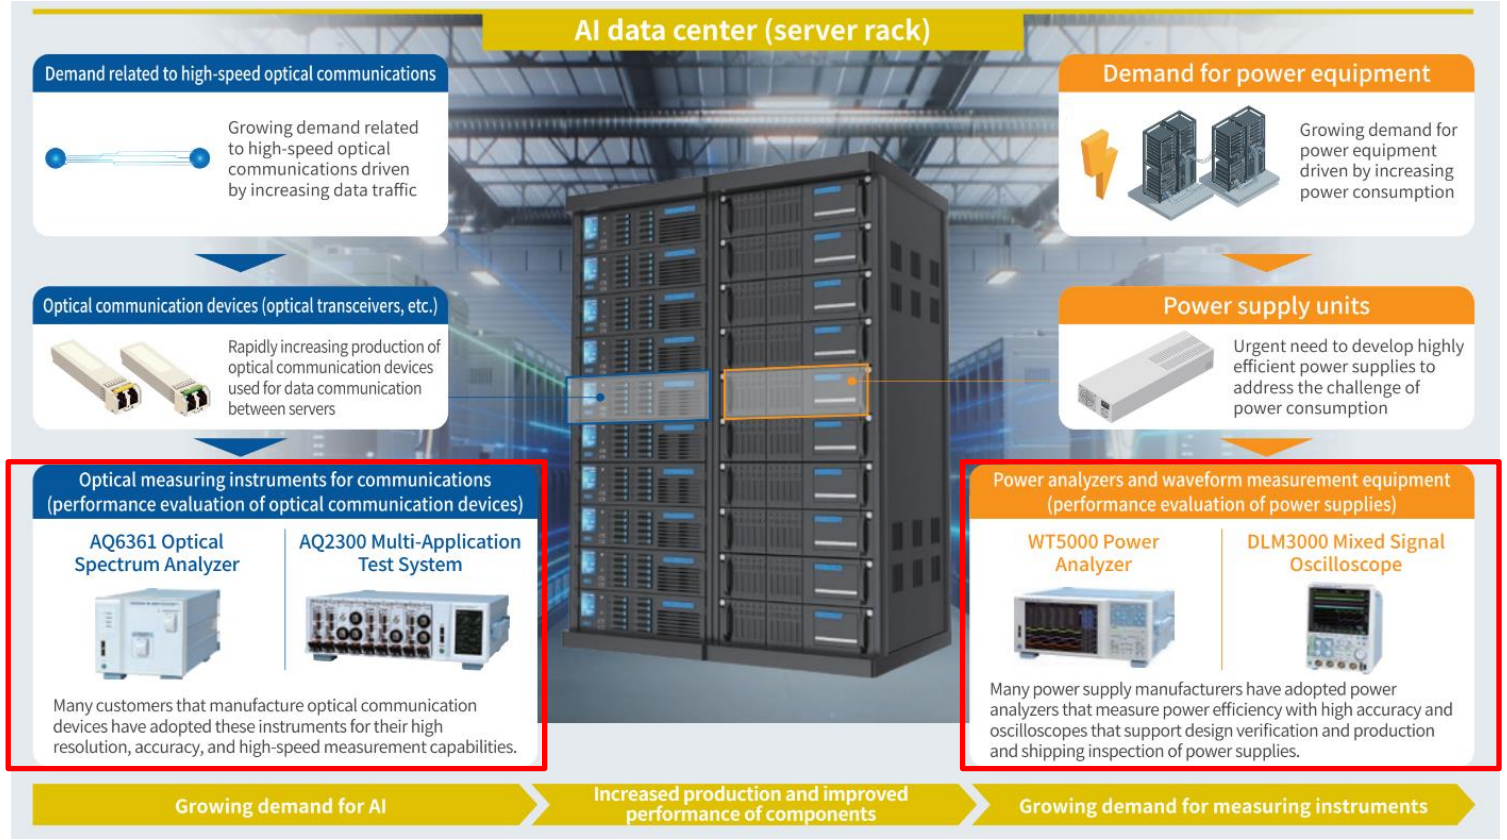

Photo of an NTPC thermal power plant

- Received an order for new ultra-supercritical coal-fired power plants to be built by National Thermal Power Corporation (NTPC) in Nabinagar and Gadarwara
- Signed a contract with India-based Larsen & Toubro, the EPC contractor for the project
- Yokogawa will provide control and safety instrumented systems
- Contributing to the development of India's energy infrastructure amid growing demand driven by population and industrial growth

© Yokogawa Electric Corporation

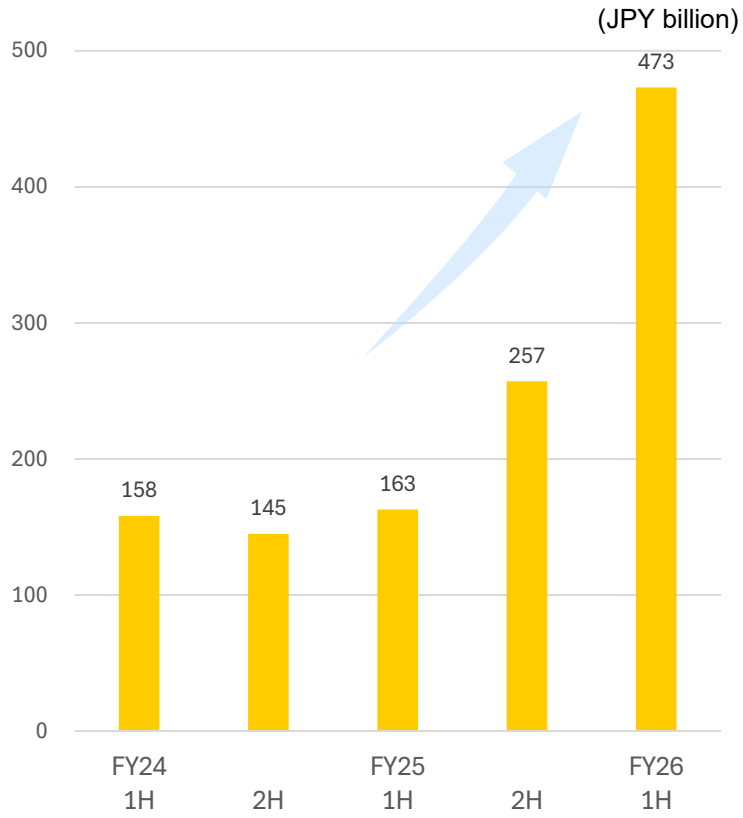

Continued Strong Orders for Measuring Instruments Driven by AI Data Center Investment

- Increasing large orders for optical communication measuring instruments, particularly optical spectrum analyzers
- Growing demand for power and waveform measuring instruments used in power supply performance evaluation

・・・Yokogawa products

Measuring Instruments order trend

Priority Target Areas for FY26

CAPEX x India

- Intense competition, yet robust infrastructure investment
- Leveraging “winning capabilities in India” across emerging markets

Measuring Instruments Business × Global

- Strong growth in FY25, demonstrating proven product competitiveness
- Accelerating global expansion

AI x OT

- Strong market response to FKDPP
- Strength in total solutions encompassing safety and security

OPEX x Europe & Southeast Asia

- Strong installed-base relationships
- Value-added solutions and services

Yokogawa's Purpose

Utilizing our ability to measure and connect, we fulfill our responsibilities for the future of our planet.

Measuring represents Yokogawa's origin as a company. We measure things, grasp and analyze their state, and add value through the information that is derived. *Connecting* refers to how Yokogawa not only combines valuable information, but also builds trusted relationships with customers in various industries and brings together businesses and industries, giving resonance to the value that we create.

Our ability to measure and connect is a core competence that Yokogawa must never lose. We wish to use this strength to find solutions to various social issues and create a future where humanity and planet Earth can co-exist in symbiotic harmony. This aspiration is expressed in our commitment to *fulfill our responsibilities for the future of our planet*.
